

PERIMETER DOOR PROTECTION

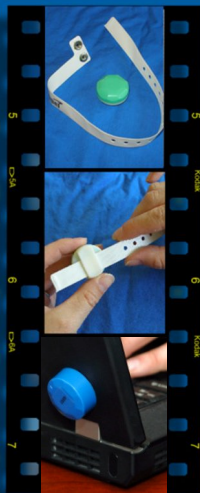

WANDERING RESIDENT PROTECTION LOSS PREVENTION

“ While looking for a solution to ensure that our residents do not wander away unsupervised, we also wanted the most reliable technology we could find, at an affordable price. AtGuard met all our expectations.

ATGUARD

AtGuard™ system benefits include:

- **Wireless connectivity between components** – minimizes the number of cables required to connect system devices.
- **Digital Technology** – high level of immunity to ambient noise, greatly enhancing reliability.
- **Smallest, Lightest Resident Tags** – easy to apply and mount, with 12 months battery life.
- **Effective Loss Prevention** – Article Tags are easily applied and last four years with *zero* maintenance required.

ATGUARD

By BEC / RFID Solutions

Wandering and disoriented residents & residents can come to harm if they go astray, but limiting their freedom can cause unnecessary stress and anxiety – in addition to loss of dignity. The AtGuard Perimeter Door Protection gives residents freedom while you keep a virtual eye on them – making sure they don't get into harm's way in a gentle and respectful manner. AtGuard also delivers effective Loss Prevention using GuardRFID's Article Tag with *zero* maintenance for four years (typical), while maintaining freedom of movement for authorized personnel.

Resident tags are smaller than any others available, and designed to be used with your standard bands, so that they are unobtrusive and comfortable.

The system is fully self-contained, and all devices communicate wirelessly, requiring no expensive or complicated cabling. Installation of the Door Controller Package is simple and affordable, and only requires power to operate.

AtGuard's advanced technology delivers on both security and economy helping you to achieve peace of mind in knowing that your residents and equipment are safe. CALL BEC at 888-556-3998
